

We need your empty milk bottles!

Our Supported Living service in Crossways, Dorchester are planning to decorate their garden area this Christmas by making some 'ice' sculptures using empty milk cartons.

Andrew has been supported around the village putting up posters and asking locally if anyone can donate their empty 4liter milk bottles for this project. The local Church have even got on board!

Thank you to some of the local residents that have already donated their empty 4 liter plastic milk bottles. A load more are expected too!

If you can donate any then please feel free to drop them off to either of the below addresses....
